

SUPPLIER ALERT NOTICE

=====

Date: August 27, 2018

Subject: "RESTRICTED SUPPLIERS" ALERT

Dear Valued Supplier,

Teledyne DGO manufactures products that work in harsh environments performing mission critical and/or life-sustaining applications. In support of the criticality of our product applications, we will, on occasion, restrict Suppliers based on notification or evidence of questionable or fraudulent activities such as, but not limited to, changing certifications without authority, obscuring data on certifications, signing off on tests not performed, misrepresentation of materials acceptability, or other non-conformance to specifications.

To communicate the seriousness of this type of activity throughout the supply chain, we created a "Restricted Suppliers Lists" that prohibits our Suppliers from delivering material, products, or services to us that were manufactured by any of these Suppliers. Any delivered materials, component(s), or services that used a material or service from a restricted supplier shall be rejected by TDGO and returned for a full refund.

Restricted Supplier List

Bristol Alloys Inc.

Western Titanium, Inc.

Mach 2 Metals

In the event that your company has supplied us material, component(s), or services from the above restricted suppliers, you must immediately notify us.

By working together to prevent acceptance of suspect fraudulent and/or counterfeit material, components and services, we may continue to demonstrate the effectiveness of our supply chain. If you require additional clarification on this matter please do not hesitate to contact me.

Best regards,

Maurita Mitchell
