

OTSBB200/33-5/23

Weight = 7.8Kg.

Performance Data

Frequency	33kHz	200kHz
Beam Width	23°	5°
Q (transmit)	6.4	2
Rated RMS Power	1,000 W	2,000 W
Balanced Impedance	60 ohms	100 ohms
Peak Figure of Merit	16db	-8
Bandwidth	5kHz	100kHz
Acoustic Window Material	Urethane	Urethane
Cable Type	C44 (2-18 & 2-	C44 (2-18 & 2-
	22 AWG)	22 AWG)
Cable Size	11mm	11mm

The SEALCAST™ urethane streamlined housing is durable. The transducer can be mounted on the hull or over-the-side. The optional fairing is recommended for permanent installations and will not swell or rot. Excellent for deep-water surveys.
