### PRODUCT FEATURES

- **Ease of use:** Easy to carry, easy to deploy, and easy to operate; just power and go.
- **Intelligent:** Automatic adaptive sampling based on flow conditions continuously optimizes your discharge measurement from bank to bank, thus ensuring the highest quality data without your intervention.
- **Flat transducer:** The sleek phased array transducer design provides reduced size, weight, and flow disturbance.
- **Versatile:** A single instrument can deliver high quality data in environments ranging from a 0.4 m stream to a 60 m deep river.
- **Superior surface measurements:** Interwoven independent and short range measurements improve the discharge computation in your critical surface layer.
- **Platform stability:** RiverRay's float boasts reduced drag, causes less flow disturbance, and provides superior handling—even in high water velocities and rough surface.
- **No cables required:** Data is wirelessly transmitted to your shore station via Bluetooth™ technology.
- **DGPS compatible:** Integrate an external DGPS for difficult conditions, such as moving beds.
