

Teledyne Cable Solutions

Custom Molded Interconnect Solutions

Teledyne Cable Solutions is a vertically-integrated engineering and manufacturing company specializing in ruggedized cable and cable assemblies.

Benefit from Teledyne Cable Solutions' extensive experience in overmold tool development and manufacturing. Teledyne Cable Solutions produces fast prototyping due to vertical integration in three focus areas: cable manufacturing, end terminations and overmolding, and product integration and testing.

DEDICATED IN-HOUSE MOLD TOOL DESIGN AND MACHINING

3D MODELING

Promotes early product acceptance

PREDICTIVE MOLD FLOW SOFTWARE

Speeds design efforts

IN-HOUSE 3D PRINTING

Supports faster prototype output, and integration reduces cost

CUSTOM MOLDED BREAKOUTS, BEND RELIEF, AND OVER-MOLDS

Over-molded Breakout

Bend and Strain Relief

Connector Overmolds

PROTOTYPE FACILITIES AND VALUE MANUFACTURING CENTER

Our business focus for Interconnect Solutions includes:

- Lighting
- Marine
- Transit
- Defense
- Security
- Pipe inspection
- Agriculture
- Mining
- Land
- Oil & Gas
- Lifting
- Heavy Machinery
- Industrial
- Forestry
- Transport
- Medical instrumentation and Industrial
